\$3000

Aerial vision for ground troops

zirukraine.com

Roadmap

1. Oracle

- Programmatically controls drones scattered in the area
- Displays aerial footage from the drone on the map on Fighter's displays

2. Raven

- Recognizes humans and vehicles on aerial footage
- Displays markers on AR view on Fighter's displays

3. Tempest

- Self-contained in-field server
- On-board control software for the drone
- Advanced communication
